

Starter Session 2

How many words can you spot in the story below that have a 'sh' sound in them spelt with the 'sh' or 'tion' grapheme. Highlight the ones that you spot.

Tim the Wizard loved making potions. He was great! Anything that you wished for he could come up with a concoction for you.

One day Tim's cat called Fiction was eating a portion of fish. Tim gazed at her "How I wish you could talk so we could have a conversation," he thought to himself. But this wish could come true if he made a magic lotion after all.

Tim got together a collection of things to put in it. With great caution, Tim mixed it all together. He made a motion for the cat to come to him and rubbed the lotion into his fur. What a great commotion! Friction made a sound like a train in the station and jumped up with action in the direction of the door. It had worked. Fiction could speak and they chatted for a long time about fish, potions, lotions and education.
