

Dicey multiplication (2+ players)

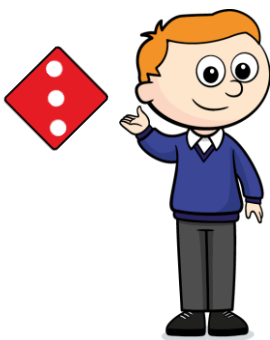

Equipment needed

- Dice (1 – 6) or (1 – 9)
- Column multiplication boards

Instructions

1. Player 1 rolls the dice and writes the digit shown in a box on the multiplication board. Once a digit has been written, it cannot be moved.
2. Continue rolling the dice to write digits until the 4-digit number and the 1-digit number have each been completed.
3. All players repeat until each player has written their 4-digit number and their 1-digit number.

1	6	4	5	
$\times$				3

4. Players complete their multiplication calculation and write the total in the answer box on their multiplication board.
5. The player with the greatest product scores one point.

The winner is the first player to reach a total of **three** points.
