

Antarctica Week 7	Art
Starter	Make sure they have watched the Oak Academy geography lesson first this week as it introduces the animals of Antarctica as a good starter.
Parent	The artworks might need some additional materials, so please make sure these are available before your child chooses which art activity to create. All the ideas require scissors, glue, card or paper.
Activities with your child	To make the penguin snow globe you need a plastic jar, card or paper to create the scene and polystyrene or cotton wool pieces to create the snow. Have fun! To make the penguin finger puppet, you need black, white and orange card, some wobbly eyes or just buttons/ white circular card. If you have a large hole punch for the finger holes that is advantageous but if not, just cut some holes the correct size. The final one is created following a youtube tutorial https://www.bing.com/videos/search?q=you+tube+easy+kids+craft+pen&&view=detail&mid=DFEB75F313F6A8B550F8D FEB75F313F6A8B550F8&rvmid=225F4A44FC9D4F012899225F4A44FC9D4F012899&FORM=VDRVRV
Parent	Please send a photo of your completed artwork in so that we will put it forward for artist of the month August, which will be awarded in September.
