| Parent            | Ibn Battuta explored many parts of Asia during the 14 <sup>th</sup> Century, he was one of the first known explorers to have written a journal about his travels. Make sure that the children understand the vocabulary in this power point by completing the clarifying activity within the English plan this week. Please support your child in understanding when this was in history - they will be able to talk about events that happened after this but will need some help thinking about events that happened prior to the life of Ibn Battuta to be able to complete the 2 star activity. Remind them about things such as the dinosaurs, the building of the pyramids, birth of Jesus, and the Battle of Hastings etc |                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                              |
