

Blending camouflage activity

You will need:

- A creature outline to color
- Tape
- Markers or crayons

Instructions:

1. Carefully cut out the different animals.
2. Decide where you are going to hide them in your house or in some outside space.
3. Colour them in so they are camouflaged and blend into the place where you attach them with some tape.
4. See how long it takes people in your house to find them!!

The picture shows how well you need to colour them in order for them to be camouflaged.
