

# Using known number facts to solve related calculations

Use the number facts you already know to finish these number sentences.

I know  $5 + 3 =$    
so I know  $50 + 30 =$

I know  $11 - 5 =$    
so I know  $110 - 50 =$

I know  $7 + 5 =$     
so I know  $70 + 50 =$

I know  $4 + 9 =$     
so I know  $40 + 90 =$

I know  $9 - 7 =$    
so I know  $90 - 70 =$

I know  $3 = 10 -$    
so I know  $30 = 100 -$

I know  $15 - 9 =$    
so I know  $150 - 90 =$

I know  $13 + 6 =$     
so I know  $130 + 60 =$

I know  $16 = 8 +$    
so I know  $160 = 80 +$

I know  $20 - 7 =$     
so I know  $200 - 70 =$

I know  $20 = 4 +$     
so I know  $200 = 40 +$

I know  $10 = 14 -$    
so I know  $100 = 140 -$
