

Maths Week 1 Monday	Fractions		
Starter	This week we are recapping our learning about fractions, focusing on thirds of a shape ($\frac{1}{3}$). Watch the video - link on the website under class pages in the maths icon and below: https://whiterosemaths.com/homelearning/year-2/		
Parent	When watching the video, pause where you feel necessary to discuss anything your child is unsure of. You may want to pause when the discussion about 'numerator' and 'denominator' begins to address those words carefully. Ignore the 'pausing for questions' as this is activity **, so if your child feels they need to go back to the video to complete the ** activity they can.		
Activities	* Worksheet based	** Worksheet based	*** Internet based
	Colour a third sheet on the website under class pages, Maths icon.	Complete the sheet, which links to the video watched at the beginning. If your child feels they would like to watch the video again to help them, they can.	Complete the game below: https://central.espresso.co.uk/espresso/primary_uk/subject/module/activity/item902653/grade1/module883167/index.html
Parent	There is an answers sheet on the website for the * and ** activity, your child can mark their own work or discuss with you as you mark together. If your child would like any challenges for this topic you can also find these on the website.
