

Maths challenges - 12.1.21

Eva and Whitney are working out some subtractions.

I am working out
 $74 - 56$

Whitney

Eva

One of my numbers
in my question is 15

Whitney's answer is double Eva's answer.

What could Eva's subtraction be?

Find the greatest whole number that can complete each number sentence below.

$$45 - 17 > 14 + \underline{\quad}$$

$$26 + 15 < 60 - \underline{\quad}$$

Explain your answer.
