

A bakery has 38 cupcakes to sell.
12 cupcakes are vanilla, 15 cupcakes
are chocolate and the rest are red velvet.
How many cupcakes are red velvet?

$$12 + 15 = \boxed{}$$

$$38 - \boxed{} = \boxed{}$$

Minnie bought a bag of 16 sweets.
She gives 7 sweets to her brother and then buys another bag of
16 sweets. How many sweets does Minnie have now?

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$
